

**Table 2: Safety Risk Reduction Program Measure and Targets**

| Safety Risk Reduction Program Measure |                                     | Fixed Route                  | Paratransit                |
|---------------------------------------|-------------------------------------|------------------------------|----------------------------|
| 1                                     | Major Events                        | $\leq 4$ per calendar year   | $\leq 1$ per calendar year |
| 2                                     | Major Event Rate                    | $\leq .23$ per 100K VRM      | $\leq .03$ per 100K VRM    |
| 3                                     | Collisions                          | $\leq 3$ per calendar year   | $\leq 1$ per calendar year |
| 4                                     | Collision Rate                      | $\leq .14$ per 100K VRM      | $\leq .03$ per 100K VRM    |
| 5                                     | Injuries                            | $\leq 5.3$ per calendar year | $\leq 1$ per calendar year |
| 6                                     | Injury Rate                         | $\leq .23$ per 100K VRM      | $\leq .13$ per 100K VRM    |
| 7                                     | Assaults on Transit Workers         | $\leq 1.6$ per calendar year |                            |
| 8                                     | Rate of Assaults on Transit Workers | $\leq .06$ per 100K VRM      |                            |
